## *Batavians for Clean Energy and Conservation* [www.GreenBatavia.org](http://www.GreenBatavia.org)

"Dedicated to promoting the wise usage of energy and water in our homes and throughout Batavia."

Offering local ideas for green living: natural landscaping and lawn care, eating locally, conserving energy, recycling sources, volunteering, and much more...

Don't miss... "Living Green This Summer" - Monday, May 12, 2008 - 7:00 pm - 9:00 pm - Batavia Public Library

## *The Batavia Environmental Commission* City of Batavia [www.cityofbatavia.net/environmental](http://www.cityofbatavia.net/environmental)

The Environmental Commission will be giving away up to 300 CFLs! (Limit one per family!) They use 2/3 the amount of energy and last up to 10 times longer than an equivalent incandescent bulb. If 300 Batavia families switched just one light to a CFL, we'd save 150,000 lbs of carbon dioxide emissions over the life of the bulb. *Let's make the switch.*
